

## Care and maintenance:

# NX LAMINATE

The surface of NX Laminate can be carried out easily using a soapy sponge or soft cloth for cleaning. For more persistent marks and stubborn stains, use an appropriate non-scratch liquid or cream, or organic solvent (preferably white spirit or acetone), rinsing well with warm water and ensure all residue is wiped away with an all-purpose paper towel or lint-free cloth. Proprietary window cleaners are excellent for avoiding drying marks and can be used safely.

Avoid using any abrasive products or cleaners (including scouring pads and powders, steel wool, black soap) or bleaching agents, wax furniture polishes and cleaning products with strong acid or alkali bases.

Any spots of glue must be removed immediately. Neoprene or silicone joint spots must be removed with the appropriate solvent and vinyl glue with hot water. Residual flakes of glue may be removed with acetone.

### A note on textures finishes:

Textured finishes are more difficult to clean when comparing to the smooth surfaces. For stubborn marks in heavily textured surfaces, a nylon bristle brush can be used in conjunction with any of the above cleaners to remove stains and stubborn marks.
